

# STOCKTON WINTER 5K TRAIL RACES

**A new range of healthy races which take in the countryside sites across the Stockton Borough.**

Working alongside the Tees Trail Races team, we've organised a series of great runs to put something back into the local running scene as well as to keep the popular series going all year round.

We attract a wide variety of different abilities and always support and encourage novice or less experienced runners to participate.

So come along, meet some new people and take part in a fun, healthy run!
